AFFIRMATIVE DEFENSES

First Affirmative Defense (Failure to state a claim)

The Amended Complaint fails to state a claim upon which relief may be granted.

Second Affirmative Defense (Invalidity)

Upon information and belief, the '343 patent and each and every claim contained therein is invalid for failure to satisfy at least one of the requirements for patentability under 35 U.S.C. §§ 101, 102, 103, 112 and/or for being otherwise in violation of one or more of the sections of Parts I, II, and III of Title 35 of the United States Code. In particular, there are numerous prior art cameras with clip mechanisms that anticipate or make obvious the '343 patent.

Third Affirmative Defense (Non-Infringement)

Target has not and does not infringe, induce infringement, or contribute to the infringement of any claim of the '343 patent, either literally or under the doctrine of equivalents. Target does not infringe the '343 patent at least because its accused products do not have hinge

members as required in each of the claims. Furthermore, to the extent it has hinges they are not rotatable along the required axes in each case. And certain of Target's accused products are single piece construction such that portions of their support frames cannot be moved relative to one another.

**Fourth Affirmative Defense
(Patent Marking)**

Upon information and belief, Plaintiff is not entitled to any damages for alleged infringement because of its failure to comply with 35 U.S.C. § 287 and / or its failure to otherwise give proper notice that Target's actions allegedly infringed the '343 patent.

**Fifth Affirmative Defense
(Laches)**

Upon information and belief, Plaintiff's claims are barred by the equitable doctrine of laches, unclean hands, estoppel, and/or waiver.

**Sixth Affirmative Defense
(Unavailability of Injunctive Relief)**

Plaintiff is not entitled to injunctive relief, because any injury to it is not immediate and irreparable, Plaintiff would have an adequate remedy at law, the balance of hardships favors no injunction, and the public interest is best served by no injunction.

**Seventh Affirmative Defense
(Other Affirmative Defenses Based on Later Discovered Evidence)**

Target reserves all affirmative defenses under Rule 8(c) of the Federal Rules of Civil Procedure, the Patent Laws of the United States and any other defenses, at law or in equity, that may now exist or in the future be available based on discovery and further factual investigation in this case.
